

Data Ethics

Why Data Science?

- Quantitative Fields
 - Math
 - Probability
 - Statistics
- On-Demand Job Market
 - LinkedIn Workforce Report: Shortage in All Cities (2018)
 - [Article](#) by Gregory Piatetsky
- Applicable Across All Areas
- Bigger Data Requires Better Skills
- People are Scared Because Analytics is Coming

Why Data Science?

Why Data Science?

- Data Science is Not a Fad
- People Have Data and Need Us to Analyze the Information to Answer Their Questions
- Decisions Based on Our Analyses Can Effect Others
- We Must Operate Ethically
- There is Power in the Information

Some Dope
Quotes

*With Great Power
Comes Great
Responsibility.*

- Uncle Ben

*No One Man Should
Have All That Power.*

- Kanye West

Hippocratic Oath for Data Scientists

I solemnly pledge to practice my profession with conscience and dignity;

To respect the privacy of the people whose data is confided in me;

To maintain the utmost respect for the individuals whose data I am analyzing;

To be transparent, open, and honest about the type of analysis I am applying to their data;

To never use my knowledge to violate human rights and civil liberties, even under threat.
